40. Floretted (Ourt)
16. Electrical (Cont.) Electric light standards for lighting grounds, streets, courts, etc. Underground or overhead service.
All items of construction, equipment and finish, together with all incidentals, which are essential to the completion of the project will be provided whether or not specifically included in the exhibits and will be of a type, quality and capacity acceptable to HUD and appropriate to the character of the project.
Signed (Local Authority or Developer)
By (Architect)

15. Mechanical (Cont.)
Space Heaters: Type, make, model, location and output of heating systems such as wall heaters, floor furnaces and unit heaters.
opace Housels. Type, make, mean, recalled and eaply of housing systems each as man housels, meet familiated and anic housels.
Temperature Controls: Individual unit, zone, central, etc.
Temperature Controls: Individual unit, Zone, Central, etc.
Ventilation: Location, capacity and purpose of ventilating fans.
ventilation: Location, capacity and purpose of ventilating fains.
Air Conditioning
Unitary Equipment (Self Contained or packaged units.)
Calculated Load:
Equipment: Make, model, operating voltage and capacity in BTUH for each size serving individual rooms, apartment units, or zone.
Central System:
Calculated Load:
Equipment (Make, model capacity, etc., of compressor, cooling tower, water chillers, air handling equipment, and other components which make up the complete system.)
Utilities On-Site: Material for distribution system for all piped utilities.
ounities of one invalend for distribution system for all piped utilities.
Water Supply: Eira hydronta, yard hydronta, lawa aprinklar ayatama, aytariar drinking fauntaina
Water Supply: Fire hydrants, yard hydrants, lawn sprinkler systems, exterior drinking fountains.
•
Gas:
Sanitary Sewerage: Treatment plants, pumping stations, manholes.
16. Electrical
Electrical Wiring: Type of wiring and load centers, number of circuits per unit, individual unit metering or project metering, spare conduit for future load requirements, radio or TV antenna systems. Show receptacles, light outlets, switches, power outlets, telephone outlets, door bells, fire alarm systems, etc., on drawings.
systems. Show receptacies, light outlets, switches, power outlets, telephone outlets, door bells, life alarm systems, etc., on drawings.
Electric Fixtures: Type for various locations.

U.S. Department of Housing and Urban Development Office of Public and Indian Housing

OMB Approval No. 2577-0012 (Exp. 10/30/97)

Public reporting burden for this collection of information is estimated to average 3 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to the Reports Management Officer, Paperwork Reduction Project (2577-0012), Office of Information Technology, U.S. Department of Housing and Urban Development, Washington, D.C. 20410-3600. This agency may not conduct or sponsor, and a person is not required to respond to, a collection information unless that collection displays a valid OMB control number.

Do not send this form to the above address.

Instructions: Describe all materials and equipment to be used. Include no alternate sheets if necessary to completely describe the work. The Cost Estimate will recogn Certain parts of the work cannot be put in their proper classification until more informate categories below, the following: main service and other stairs, treads, risers, hand and between apartments and public spaces, utility conduits and tunnels, waterproof buildings; and off-site improvements required to serve the project such as roads.	ize quality products and materials in ex ation about their materials and construct drails, balusters, etc.; sound insulation ing and draining, utilities, and related ins	cess of acceptable minimums, when specified. ion is known; therefore describe, under suitable of partitions and floors separating apartments sulation; retaining walls; garages and accessory
1. General Requirements		
2. Site Work		
Type of Soil	Bearing Capacity	
Material and thickness of fill and base course.		
Demolition: Construction of structures to be demolished and materials to be reused.		
Storm Drainage: Culverts, pipes, manholes, catch basins, downspout connection (dry we	ell, splash blocks, storm sewer).	
Site Preparation: Tree protection, surgery, wells, walls, topsoil stripping, clearing, grubbing	ng, and rough grading.	
Curbs and Gutters: Type and material.		
Pavement: Material and thickness of base and wearing surface for drives, parking areas,	streets, alleys, courts, walks, drying yards	and play areas. Steps, handrails, checkwalls.
Equipment for Special Areas and Enclosures: Play equipment, benches, fences.		
Finish Grading: Approximate existing depth and method of improving topsoil. Extent of fin	nish grading.	
Lawns and Planting: Type, size, quantity and location of lawn seeded or sodded; ground	l cover and hedge material, trees, shrubs, o	etc.
